Edge Collapsible Fishing Tower

Rigid Frame Fishing Tower

“Built by fishermen, for fishermen.”

We have built over 10,000 towers since we started 15 years ago, we know what works. Our skilled craftsmen are passionate to work with you to build a tower that will enhance the looks of your boat while making it more fishable. We perform all of the bending, welding, computer guided machining and fabrication on-site using only USA made materials. If you can dream it, we can build it.

Edge Collapsible Fishing Towers

The “Edge” collapsible tower is custom designed to match the shape of the windshield and side window yet still fit around your canvas top. One person can collapse the tower to below windshield height in about a minute, without any tools. The custom built, all welded Edge tower is today’s answer for the old style, universal bolt together towers that look like an add on. You can choose from a list of accessories to enhance your tower. We know that you never spend enough time on the water and when you are able to get away, you want the best experience.

Rigid Frame Fishing Towers

The “Rigid” model tower is the most popular choice for the die-hard angler who won’t compromise on performance and looks. Each Tower is custom built to match the shape of your canvas/hardtop. You can choose rocket launchers, radar pads, bolt on and weld on net and rod holders, tower deck lights, remote control spot lights, integrated LED anchor light, wakeboard racks or downrigger mounts to add to your tower package. Don’t settle for a bolt together tower that looks like a “swing set.” The “Rigid” all welded design offers superior strength and looks.

accessories

Samson Sports manufactures fishing tower accessories for just about any application. Need Rocket Launchers? We build single, double and triple bolt on and weld on rod holders. Tired of fighting your net? We have weld on and bolt on net holders. We also have VHF mounts, standard and raised radar pads, Halogen and LED tower lights, LED anchor lights and remote controlled spot lights. If it will help you look cool or catch more fish, WE HAVE IT.
